

Adopted: April 23, 2018

Revised:

- 1.1 The Board of Education recognizes that digital technology is an integral part of the educational curriculum, bringing value to support student achievement, business excellence and staff development. Through software applications, cloud-based solutions and electronic mail, the District Technology Resources significantly enhances educational experiences and supports communications, along with learning opportunities for students and staff while also providing schools with rich online resources.

Access to the digital network, however, is also associated with hazards that may not be considered appropriate in the context of students or a Board of Education setting. As a means of encouraging responsible and ethical use of digital technology, while filtering digital content, monitoring activity and protecting the personal information of students and staff, the Board of Education has established standards and guidelines for all users.
